## CANADIAN GOVERNMENT ANNUITIES.

The object of the Canadian Government Annuities Act is to promote habits of thrift, and to provide all persons, male or female, domiciled in Canada with a safe and sure plan of making provision for old age at the lowest possible cost. Deposits may be made at any Money Order Office in Canada, for which purpose the postmaster will supply the purchaser with a pass book ; or deposits may, if preferred, be remitted direct to the Annuities Branch in any manner that may best suit the convenience of the purchaser ; If by cheque or money order, this should be drawn to the order of the Receiver-General. Upon all deposits 4 per cent compound interest will be allowed, and at the age of 55 (which is the earliest age at which an Annuity can begin) or at any later age desired—and of course the longer deferred the larger will be the Annuity, such Annuity as the total amount then at the credit of the Annuitant will purchase will be paid in quarterly instalments so long as the Annuitant lives. A definite amount of annuity may be secured if specific sums are regularly paid. Should the Annuitant die before the date fixed for the Annuity to begin, all payments made will be returned to the legal representatives of the purchaser with 3 per cent compound interest ; though the same payments will secure a larger Annuity if the purchaser does not wish to provide for this return.

If a person has an amount at his credit in the Post Office Savings Bank, he may have this amount, or such portion of it as he may desire, transferred to the Annuities Department for, or on account of, the purchase of an Annuity.

The minimum Annuity which may be purchased is \$50, and the maximum \$600. The earliest age at which the purchase may be begun is 5, but it may begin at any age thereafter. To each purchaser a contract or policy is issued ; and a provident feature of the system is that there are no penalties or forfeitures. If payments should for any reason cease, they may be renewed at any time ; and if arrears are not made up the only effect will be that a smaller annuity will be secured. Should the payments made be not sufficient to purchase an Annuity of \$50, the total amount paid in with 3 per cent compound interest will be returned to the purchaser.

Anyone over the age of 55 may buy an Immediate Annuity ; and a Last Survivor Annuity, Immediate or Deferred, may be purchased by any two persons by a single payment.

By paying a little higher rate, all Annuities may be guaranteed for a number of years certain.

Deferred Annuities are issued on three plans, namely, (1) without return to the estate of the purchaser of any payments made should death occur before the Annuity falls due, which gives an Annuity at the very lowest cost ; (2) with return of payments to the legal representatives of the purchaser in case of death before the date fixed for the Annuity to begin for which a little higher rate is charged ; and (3) with return of payments should death occur before the date fixed for the Annuity to begin, but should that date be reached the payment of the Annuity to be guaranteed for a number of years certain, not to exceed 20 years, and if the Annuitant should survive the guaranteed period the Annuity to be continued to him so long as he might live. Where death occurs before the date fixed for the Annuity to begin and a return of the payments is made interest at 3 per cent compounded up to the date of death is allowed.

Up to the 31st of March, 1911, on the first plan 177 contracts have been issued ; on the plan providing for a return of the payments should death occur before the date fixed for the Annuity to begin, 676 contracts have been issued ; and on the guaranteed plan, 566.

The Annuity is not transferable, but under the Act it is provided that where the purchaser of an Annuity is made by husband or wife, he or she has the right when the

2 GEORGE V., A. 1912

Annuity matures to say if it is desired that a portion of the Annuity shall be paid to the other. Should a division be made the portion going to each would end with his or her death, and the survivor would receive no benefits therefrom. This is considered to be a most valuable privilege, and to some extent has the advantage of the purchase of a Last Survivor Annuity.

**DEFERRED ANNUITIES GUARANTEED FOR 10 YEARS BUT PAYABLE THEREAFTER SO LONG AS ANNUITANT LIVES.**

Yearly payments (which may be split up into weekly, monthly, quarterly or half-yearly amounts if desired without additional cost) required for the purchase of a Guaranteed Annuity of \$100 beginning at age 55, 60, 65 or 70. In the event of death at any time before the first payment of Annuity falls due all payments made, with 3 per cent, compound interest, will be refunded to the heirs. In the event of death within the first ten years after the Annuity becomes payable the payments will be continued for the full ten years as the purchaser may direct. If the annuitant survives the 10 years the Annuity will be continued so long as the annuitant lives. The cost of each additional \$100 up to \$600 is at same rate. The Annuity would be paid in instalments of \$25 every three months.

Example : A man aged 20 purchasing a Guaranteed Annuity of \$100 to begin at age 60 would pay in \$11.14 a year for 40 years, or a total of \$445.60.

If he should die at any time before the Annuity fell due, all that he had paid in with 3 per cent. compound interest would be returned to his heirs.

If he should die after the last premium had been paid and just before the Annuity fell due, the Government would return to his wife or heirs the sum of \$865.17.

If he died after receiving one payment of Annuity the Government would pay to his wife or heirs \$25 every three months until the whole of the \$1,000 guaranteed had been paid.

If he survived the 10 years, the \$100 a year, which is the annual income on a deposit of \$3,333.33 $\frac{1}{3}$  in the Post Office Savings Bank, would be paid to himself so long as he might live if he should live to be 100 or over.

Females, Plan A.

Table showing the cost of a Deferred Annuity of \$100 to begin at age 60, and to be payable for 10 years whether annuitant lives or dies, a return of \$1,000 being guaranteed.† (If annuitant should die before receiving annuity for 10 years, the purchaser may direct to whom the payments for the unexpired portion of the 10 years shall go; if the annuitant survives the 10 years, the annuity will be continued to her in quarterly payments so long as she lives without extra cost.)

Also showing amounts to be returned in the event of death occurring at the end of a certain number of years after purchase has been begun. Should death occur at any intervening age, a corresponding amount would be paid.
